Concrete Resurrection – Floor Finish Remover
CR-521

www.ConcreteResurrection.com

Floor Finish Remover is a ready to use, fast acting floor finish stripping agent for most commercial and residential floors. It is ammonia free and has minimal light smell.

Coverage: 400 Square Feet per Gallon

Steps:

1. **Apply:** Use a mop, stiff bristle brush or scrubbing machine to spread the material.
2. **Soak:** Allow the floor to soak for 2-8 minutes. Typically, the floor finish will become milky or cloudy when it is ready for removal. Do not allow the solution to dry, apply extra as needed.
3. **Test:** Scrub a small section of the floor to make sure the floor finish is completely dissolved and ready for removal
4. **Scrub:** Use a floor machine with nylon bristle brush, stiff bristle broom or scrub brush to agitate the floor finish.
5. **Clean:** Use a wet vacuum or mop to remove all residue from floor. Mop several times with clean water to ensure floor is clean and ready for reapplication of floor finish. Note: when the floor is clean you will not see any foaming or bubbles when mopping.

Pro Tips:

- Be Careful! – Floors are very slippery with floor finish remover on them. Strip small sections at a time to avoid walking on the wet surface.
- Test a small section (4-8 square feet) prior to applying over the entire floor.
- Do NOT use on marble, natural stone, wood or new no-wax vinyl floors.
